# Make the most of your mobile care station

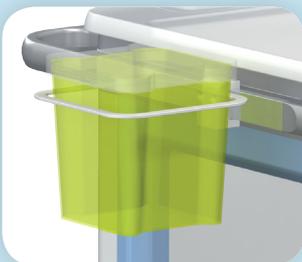

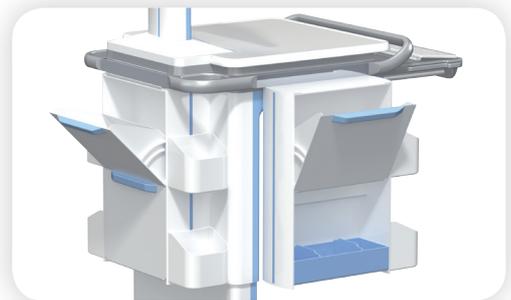

Mobile working takes on a new meaning when your mobile care station lets you stow away your medical devices, accessories and equipment. The smart AMiS design, with its many handy accessories and storage options, means there's a place for everything you need during your working day.

Optimise your AMiS with this huge selection of accessories and storage options. Don't see the accessory you're looking for? Simply let us know and we'll make it especially for you! So you get the most out of your mobile care station.

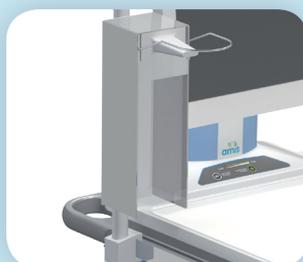

Plus you can mount your storage system where you need it: on the back or either side of the AMiS. And with three versions to choose from, there's one to fit your way of working.

## AMiS Storage module

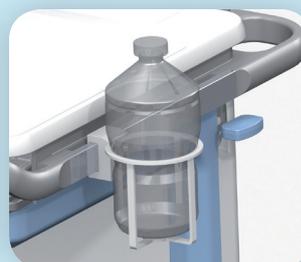

Everything you need is safely within reach with this modular storage unit: bottles, cups, infusion bags, you name it. The AMiS can be fitted with various open and lockable storage compartments. A flexible mounting system ensures bottles stay firmly upright. Each and every component is removable, for easy and hygienic cleaning.
